

# The Right Marking for *your* Application

## Featuring

- Custom Symbols
- Custom Text
- Logos
- Silk-screening
- Laser engraving

Customizing pushbuttons or control stations with symbols and text is a great way to enhance the functionality and appearance of your equipment. We make customizing easy. Control stations can be supplied assembled to your specifications with all pushbuttons, contact blocks and LED's pre-installed. Simply provide us with the details of your application including the suitable files of any special symbols or logos required and we'll do the rest.

OUR COMMITMENT MAKES THE DIFFERENCE ►

## ABOUT BACO CONTROLS

BACO has long been recognized as a worldwide leading manufacturer of Industrial Pilot Devices, Rotary Cam Switches and Disconnect Switches. BACO Controls markets and sells components for industrial automation. We have established ourselves on the U.S. market by providing the combination of quality products and outstanding customer service at reasonable prices.

Since 1980 BACO Controls has provided the sales and marketing function for the Baco family of products on the U.S. market. In 2004 we expanded to include the Rex line of high precision time switches in our portfolio.

BACO products are distributed by:
